

How to Guide – Joining a Google Meet

To access Google Meet for the live session, you will need to go to Google Classroom (logged in as your child)

Once on the stream tab, you will see there is a class code and a 'Meet Link' underneath Class 3 (left of the photograph)

When you click on the link, it should now open up Google Meet. From here it will ask for permission to use your camera and microphone. Once you have done that there will be the option to click on the green 'Join Now' button and this will allow your child to access their live session.
